## Introduction

It is an evidence that increasingly, we use the capacities of the dog in benefit of the human beings already be in Security, Emergencies or Assistance.

The good use of the same ones and the system of training that we use, will depend exclusively on us as professionals.

Inside this context the need to form professional personnel arises, Canine Work Dog Instructor (Master Instructor of Canine work Units) and of them specializing. (Cycle specialized Seminars associated in the Máster - MIUCT-).

The aim of this seminar is to give a wide vision of the usefulness and application of the Explosives Canine Units, as well as the selection of the dogs, the beginning of his training, the preparation of the pupils in the use of detection Canine Units.

## Aims:

- Technical formation provides for the guide of dogs detectors of explosives.
- To contribute new tools of work that manage to promote to the maximum the efficiency in the interventions in detection of explosives.
- To complement and to improve the knowledge and resources to optimize the learning process of the dog of detection of explosives.
- To provide with a few solid bases for the operative beginning of dogs detectors of explosives.
- a general vision provides detectors of explosives to the potential users of the operative services with dogs.
